

# Solution Brief

## PLANVIEW PRISMS RPM SOLUTIONS

### Get Comprehensive Portfolio Management Capabilities Fast

How do you quickly maximize the benefit of your Planview portfolio management solution while cutting risk in your enterprise implementation?

What steps do you take to speed cross-organizational adoption of Planview Enterprise to help ensure PPM success?

Which best practices can you leverage to optimize strategy and resources with projects, services, and products?

#### Get There Fast With Planview PRISMS RPM Solutions

You need the advantages of Planview Enterprise – and you need them fast. That’s why we developed the Planview PRISMS Rapid Portfolio Management™ (RPM) Solutions. These packaged, fixed-price solutions integrate Planview Enterprise® software, Planview PRISMS® Best Practices, value-added services, and our on-demand software-as-a-service (SaaS) infrastructure to rapidly deliver the benefits of robust portfolio management capabilities.

#### Low Risk, Easy to Deploy, and Built on Our Domain Expertise

Planview PRISMS RPM™ Solutions enable the most popular business drivers for portfolio management initiatives including:

- Project Portfolio Management
- Strategic Investment Optimization
- Strategy and Execution Integration
- Organizational Capacity Management
- Product Portfolio Management
- Service Portfolio Management

PRISMS RPM Solutions provide pre-built configurations of Planview Enterprise that are tailored for your specific solution package to accelerate delivery and benefits. Incorporating the PRISMS Best Practices Library, the PRISMS Solutions embody our 20 years of leadership in the portfolio management domain.

#### Rapid Design plus Rapid Roll-Out

Every PRISMS RPM Solution includes Rapid Design and Rapid Roll-out capabilities. Rapid Design gives you instant solution access via the Planview Enterprise On-Demand infrastructure, accelerating your delivery with a pre-built configuration of Planview Enterprise. Long term, you can choose either SaaS delivery or transition to an on-premise model, based on your business requirements.

The Rapid Roll-out capability provides proven enablement and support services that facilitate organizational success. It includes:

#### Planview Enterprise

Planview Enterprise® is the market-leading portfolio management solution from Planview®. Portfolio management helps you optimize your business by balancing strategy against scarce resources – people and money. Planview Enterprise components include Enterprise Portfolio Management for strategic planning and project execution, Insight Analytics for interactive analytics shared across and beyond the enterprise, Product Portfolio Management for maximizing the market impact of products, Service Portfolio Management for managing the total cost of business service delivery, and Business Process Manager, for improving process performance. Integrated with Planview Enterprise is Planview PRISMS®, a process library of 200+ best practices. Learn more at [www.planview.com/enterprise](http://www.planview.com/enterprise).

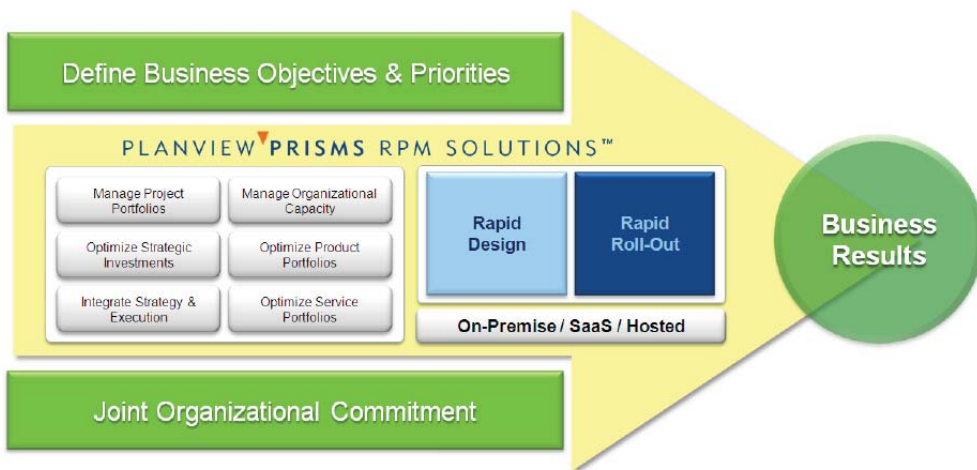

#### Planview Enterprise PRISMS RPM Solutions help you:

- Quickly drive maximum benefit from your Planview PPM investment
- Mitigate the risk inherent in enterprise implementations
- Increase Planview Enterprise adoption across your organization
- Help ensure PPM success by leveraging best practices to balance work with strategy and resources

- **Planview PRISMS Best Practices tailored to your specific solution package, to ensure your team is using the best methods to get the most out of your new investment.** The adaptive PRISMS Best Practices optimize management and performance, and are backed by thousands of process and procedural steps documented through online and on-site services, guides, and software. With PRISMS Best Practices, you build process maturity efficiently, improve business processes, and maximize the ROI on your Planview investment.
- **Planview PRISMS E-Learning tailored to the specific solution package, to accelerate adoption across your organization.** PRISMS E-Learning is a valuable complement to any program of traditional instruction. Users learn regardless of place or time. PRISMS E-Learning is available in instructor-led and self-paced versions, and is highly adaptable to many different learning styles and abilities. E-Learning users learn what they need, when they need to know it. With PRISMS E-Learning, you take full advantage of computer-based training and online resources to provide fast, cost-effective, and flexible instruction to your Planview PPM users.
- **Planview Platinum Customer Service and Support program, our premier level of customer service, so you get fast answers to all your questions.** The Platinum Service and Support program represents the highest level of customer service available from Planview. The program contains all the components you need to get the most from your Planview Enterprise investment, including premiums like Platinum support, one-on-one account management, inside access to our products group, and exclusive offers not available anywhere else.
- **The Planview Remote Advisory Service, a unique consulting and support offering that bridges traditional incident-based support and on-premise consulting.** This service provides timely, cost-effective, and streamlined access to Planview experts to address a wide range of topics including resource management and capacity planning, Business Objects reporting, strategic and project portfolio management, financial planning, and configuration support for new functionality.
